HEALING ISRAEL/PALESTINE

A Path to Middle East Peace

PEACE, JUSTICE AND RECONCILIATION for Israel and Palestine are possible. We believe the only solution is one that recognizes that Israel's best interests lie with the creation of an economically and politically viable democratic Palestinian state. The Palestinians' best interests lie with giving Israelis the sense of security they need to feel safe within the pre-1967 borders of Israel, as a Jewish, democratic state. Both peoples' best chance for lasting security lies in a new spirit of generosity, open-hearted reconciliation and a genuine commitment to nonviolence.
